Authorized to work in the US for any employer

Work Experience

Warehouse Associate

Kaliber Global - Totem Park, WA

October 2020 to Present

I repair/refurbished returned products such as drones, toys, and lifestyle products. I box/ship outgoing product, unbox and determine if inbound products/returns are still in usable condition, and note what is coming in and out of inventory. My biggest accomplishment at the warehouse was doing most of the manual labor for our warehouse reorganization project. This project involved me labeling warehouse shelving units for new designated product sections, taking products from the warehouse shelves and putting them in large boxes, moving them to new sections, and marking down the quantity of each product and where it is. This project took me over a month, but it made it easier to keep accurate inventory at the warehouse.

Sandwich Artist

Subway - West Lafayette, IN

October 2017 to May 2019

Took customers food orders, made sandwiches, did prep work, cleaned store, closed the store each shift.
